# 1 Introduction

This is an introduction to L<sup>A</sup>T<sub>E</sub>X features. L<sup>A</sup>T<sub>E</sub>X is great for writing technical and scientific documents.

## 2 Mathematical Equations

Here is an inline equation:  $E = mc^2$ .

A displayed equation:

$$\int_a^b f(x) \, dx = F(b) - F(a) \quad (1)$$

A matrix:

$$A = \begin{bmatrix} 1 & 2 \\ 3 & 4 \end{bmatrix} \quad (2)$$

## 3 Tables and Figures

A simple table:

A	B	C
1	2	3
4	5	6

Table 1: A sample table

An example figure:

Figure 1: An example image

## 4 Code Listings

Here is some example code:

Listing 1: Example Python Code

```
def hello():  
    print("Hello , -World!")
```

## 5 Algorithms

An example algorithm:

---

**Algorithm 1** Example Algorithm

---

```
Initialize  $x = 0$   
for  $i = 1$  to  $n$  do  
     $x = x + i$   
end for  
Return  $x$ 
```

---

## 6 Diagrams with TikZ

## 7 Notations

**Notations:** Some common mathematical notations include:

- **Sets:**  $\mathbb{N}$  (natural numbers),  $\mathbb{Z}$  (integers),  $\mathbb{R}$  (real numbers)
- **Operators:**  $\sum_{i=1}^n i$ ,  $\prod_{i=1}^n i$ ,  $\lim_{x \rightarrow \infty} f(x)$
- **Logic:**  $\forall x \in \mathbb{R}$ ,  $\exists y \in \mathbb{R}$

## 8 Citations and References

We cite an example source [1].
